Office of the Secretary

Re: Federal-State Joint Board on Universal Service
CC Docket No. 96-45

Dear Secretary Dortch:

On behalf of New York RSA 2 Cellular Partnership (SAC 159015 for New York) ("New York RSA 2"), please find attached a redacted, public version of New York RSA 2's Annual ETC Report under Section 54.209 of the FCC's Rules ("ETC Report"). The attached ETC Report has been marked **"REDACTED - FOR PUBLIC INSPECTION."**

NY RSA 2 is also submitting, under separate cover, a confidential version of this ETC Report. The confidential version is marked **"CONFIDENTIAL - NOT FOR PUBLIC INSPECTION."**

An original and four (4) copies of this ETC Report are enclosed. An additional copy has been provided, which you are requested to date-stamp and return in the envelope provided.

No. of Copies rec'd. 0+4
List ABOVE

Please contact the undersigned at 703-584-8678 if any questions arise concerning the above-referenced enclosures or if you require any additional information.

Sincerely,

A handwritten signature in black ink, appearing to read 'David A. LaFuria', is written over a horizontal line.

**Before the
FEDERAL COMMUNICATIONS COMMISSION
Washington, D.C. 20054**

In the Matter of)
)
Federal-State Joint Board on) CC Docket No. 96-45
Universal Service)
)

New York RSA 2 Cellular Partnership ("New York RSA 2" or the "Company"), a wireless service provider designated as an Eligible Telecommunications Company ("ETC") in the State of New York, hereby provides the Commission with its annual compliance filing containing information as set forth in the Commission's *Report and Order* in the above-captioned proceeding ("*ETC Report and Order*").¹

A. Five-Year Service Quality Improvement Plan.

¹ *Federal-State Joint Board on Universal Service, Report & Order*, 20 FCC Rcd 6371 (2005) (“*ETC Report and Order*”). The Company’s designation as an ETC carrier became effective on August 1, 2008. Section 54.209(b) of the Commission’s rules states that “In order for a common carrier designated under section 214(e)(6) to continue to receive support for the following calendar year, or retain its eligible telecommunications carrier designation, it must submit the annual reporting information in paragraph (a)...annually by October 1 of each year.” 47 C.F.R. § 54.209(b). The subject ETC Annual Report is being filed in order for New York RSA 2 to receive support and maintain its ETC designation for calendar year 2011.

REDACTED – FOR PUBLIC INSPECTION

how support was used to improve signal quality, coverage, or capacity; and an explanation regarding any network improvement targets that have not been fulfilled.”²

In the 2009 calendar year, NY RSA 2 has received a total of \$[REDACTED] in high-cost support from the Universal Service Fund. During the same period, NY RSA 2 has invested \$[REDACTED] in capital improvements reported in its 2009 SIP not counting General and Administrative expenses. Specifically, New York RSA 2 has improved coverage, performance and reliability in its ETC service area by adding a cell tower that benefitted the following wire centers: [REDACTED] [REDACTED]. It also is in the process of completing an additional cell tower that would further improve service in the [REDACTED] wire center. New York RSA 2 has spent an additional \$[REDACTED] million relating to the improvement of existing cell site coverage, performance and reliability with respect to other cell sites in New York RSA 2’s designated ETC area not included in its original 2009 Service Improvement Plan.

New York RSA 2 expects to receive an estimated \$[REDACTED] million per year in federal high-cost support under the competitive ETC (“CETC”) cap currently in effect based on USAC’s latest projections. Its five-year plan is attached as Exhibit A,³ which includes a listing of the locations of cell sites being built and those that New York RSA 2 proposes to build through 2014, along with the wire centers that are likely to receive increased capacity and coverage and/or improved signal quality as a result of the proposed improvements.⁴ New York RSA 2 also provides as

² See *ETC Report and Order*, *supra*, 20 FCC Rcd at 6400.

³ This information contained in Exhibit A is proprietary and competitively sensitive; therefore, it is being submitted under seal and is subject to the Company’s request for confidential treatment.

⁴ The Company’s 5-Year Service Improvement Plan begins in 2010 (Year 1) and ends in 2014 (Year 5).

REDACTED – FOR PUBLIC INSPECTION

Exhibit B a map showing its coverage in the region and the locations of the proposed new cell sites described in Exhibit A.⁵

As described in Exhibit A, the Company's five-year service quality improvement plan envisions the expenditure of approximately \$[REDACTED] million on network improvements and associated expenses that it would not undertake otherwise. The proposed expenditures are over and above ordinarily budgeted improvements, and the Company does not expect that it would undertake any of the listed improvements for several years in the absence of high-cost support from the USF. New York RSA 2 believes that every wire center in its ETC service area could benefit from service quality improvements made with high cost support. However, because New York RSA 2 is limited to the per-line support available in the areas it serves – and may not simply submit its USF expenditures for reimbursement – New York RSA 2 will not have sufficient support to undertake all desired improvements in every wire center within the next five years.

The selection of these projects set forth in Exhibit A is based on New York RSA 2's evaluation of many factors, including current consumer demand, competitive forces and estimated amounts of universal service support. These and other external factors are not within the New York RSA 2's control and are subject to change. Such changes may affect the New York RSA 2's assumptions and calculations of where network facilities could be improved to provide better coverage and service and where current and projected consumer demand may require increased capacity. As these externally-driven changes occur, New York RSA 2 will reevaluate and modify its estimates for implementing these projects accordingly. The order in

⁵ This information in Exhibit B is proprietary and competitively sensitive; therefore, it is being submitted under seal and is subject to the Company's request for confidential treatment.

REDACTED – FOR PUBLIC INSPECTION

which the Company's proposed projects will be undertaken has not been finally determined and may be revised over time. As a result, the content and timing of the projects in Exhibit A is subject to change. Nonetheless, the network improvement plan described in Exhibit A demonstrates New York RSA 2's commitment to use federal high-cost support to make measurable improvements in coverage and capacity for consumers throughout its ETC service area, and to update the Commission on its progress every year prior to being recertified.

B. Outage Reporting.

Under the annual reporting rules adopted in the *ETC Report and Order*, an ETC must report any outages of at least 30 minutes in duration on the facilities it owns, operates, leases, or otherwise utilizes that potentially affect at least ten percent of the end users served in its designated service area.⁶ New York RSA 2 has attached an Outage Report (Exhibit C) that includes all reportable outages taking place during the 2009 calendar year.⁷

C. Service Requests.

The FCC's annual ETC reporting rules require carriers to report the "number of requests for service from potential customers within the eligible telecommunications carrier's service areas that were unfulfilled during the past year" and to describe the steps taken to attempt to provide service.⁸

New York RSA 2 hereby certifies that it follows the six-step process for provisioning service to requesting customers set forth in the FCC's rules. The Company has implemented the necessary tracking systems and employee training procedures to ensure that the six-step process

⁶ 47 C.F.R. § 54.209(a)(2).

⁷ This information in Exhibit C is proprietary and competitively sensitive; therefore, it is being submitted under seal and is subject to the Company's request for confidential treatment.

⁸ 47 C.F.R. § 54.209(a)(3).

REDACTED – FOR PUBLIC INSPECTION

is followed as set forth in the FCC's rules. Specifically, in response to requests for service at a residence or business, New York RSA 2 takes the following steps:

1. If a request comes from a customer within its existing network, New York RSA 2 provides service immediately using its standard customer equipment.

2. If a request comes from a customer residing in any area where New York RSA 2 does not provide service, New York RSA 2 follows a series of steps to provide service.

- * First, it determines whether the customer's equipment can be modified or replaced to provide acceptable service.

- * Second, it determines whether a roof-mounted antenna or other network equipment can be deployed at the premises to provide service.

- * Third, it determines whether adjustments at the nearest cell site can be made to provide service.

- * Fourth, it determines whether there are any other adjustments to network or customer facilities which can be made to provide service.

- * Fifth, it explores the possibility of offering the resold service of carriers that have facilities available to that location.

- * Sixth, New York RSA 2 determines whether an additional cell site, a cell-extender, or repeater can be employed or can be constructed to provide service, and evaluates the costs and benefits of using scarce high-cost support to serve the number of customers requesting service. If there is no possibility of providing service short of these measures, New York RSA 2 notifies the customer and the Commission of how many requests for service could not be filled in its next annual certification report. The Commission retains authority to resolve any customer complaints that New York RSA 2 has refused to respond to a reasonable request for service.

REDACTED – FOR PUBLIC INSPECTION

During the 2009 calendar year, New York RSA 2 did not have any unfulfilled requests for service from customers within the designated area.

D. Consumer Complaints.

During the 2009 calendar year, New York RSA 2 received [REDACTED] complaints per 1,000 handsets.

E. Commitment to CTIA's Consumer Code for Wireless Services.

In the *ETC Report and Order*, the FCC reiterated that carriers must commit to abide by the CTIA Code.⁹ New York RSA 2 is officially listed by the CTIA as having fully implemented and adopted the CTIA Code.¹⁰ In submitting this report, New York RSA 2 certifies that it will continue to abide by the CTIA Code, as it may be amended from time to time, for all of its operations in New York.

F. Ability to Remain Functional in Emergencies.

Under the rules adopted in the *ETC Report and Order*, an ETC applicant must:

demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.¹¹

⁹ Under the CTIA Consumer Code, wireless carriers agree to: (1) disclose rates and terms of service to customers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; and (10) abide by policies for protection of consumer privacy. The CTIA Code can be viewed on the Web at http://www.wow-com.com/pdf/The_Code.pdf.

¹⁰ The list is on CTIA's web site at http://www.ctia.org/wireless_consumers/consumer_code/index.cfm.

¹¹ *ETC Report and Order*, *supra*, 20 FCC Rcd at 6382; 47 C.F.R. § 54.202(a)(2).

REDACTED – FOR PUBLIC INSPECTION

Once designated, an ETC must certify annually to its emergency functionality.¹²

New York RSA 2 is mindful of the importance of ensuring uninterrupted service so that law enforcement and public safety officials, as well as the general public, can make important calls in the event of a hurricane or other emergency. New York RSA 2 hereby certifies that it is capable of functioning in emergency situations as set forth in section 54.202(a)(2).

G. Local Usage.

In the *ETC Report and Order*, the Commission concluded that each ETC must annually certify that it offers at least one local usage plan comparable to the one offered by the incumbent LEC in the service areas for which the applicant seeks designation.¹³ In the *ETC Report and Order* on which that requirement was based, the FCC declined to adopt a specific local usage threshold or require that an applicant match the incumbent's offering. Rather, the FCC concluded that the comparability of rate plans should be evaluated on a case-by-case basis, in consideration of the number of included minutes, the size of the "local" calling area, monthly price, and other factors. As examples, the FCC mentioned that an applicant may offer "a local calling plan that has a different calling area than the local exchange area provided by the LECs in the same region, or . . . a specified number of free minutes of service within the local service area."¹⁴ The FCC also envisioned cases where an applicant may offer an unlimited calling plan that bundles local minutes with long distance minutes.¹⁵

New York RSA 2 satisfies the FCC's local usage requirement in that consumers may choose from a variety of plans with different combinations of minutes (with one plan offering

¹² *ETC Report and Order, supra*, 20 FCC Rcd at 6401; 47 C.F.R. § 54.209(a)(6).

¹³ *See ETC Report and Order, supra*, 20 FCC Rcd at 6385; 47 C.F.R. § 54.209(a)(7).

¹⁴ *See ETC Report and Order, supra*, 20 FCC Rcd at 6385.

¹⁵ *Id.*

REDACTED – FOR PUBLIC INSPECTION

unlimited minutes), and monthly rates, to suit individual consumer needs. With the ability to choose rate plans that meet their calling patterns and preferences, the Company's customers have the ability to select at least one rate plan that offers comparable or better value than the rate plans of the ILECs in the same areas.

The Company's rate plans offer comparable or better value to consumers than those offered by the ILECs in its proposed ETC service area. For example, New York RSA 2's Nationwide 450 Plan offers 450 minutes of calling that allow customers to make calls or travel beyond any local calling area without incurring toll or roaming charges. The plan is available for a monthly price of \$39.99. In addition, the Company's Nationwide 900 Plan offers 900 nationwide minutes for a monthly price of \$59.99.

The rate plans described above demonstrate that New York RSA 2's service offerings allow consumers to select a plan that provides them with equal or greater value than a wireline rate plan. The service area associated with the rate plans are much larger than rural ILEC local calling areas, which typically allow a consumer to reach only a few hundred or a few thousand people within an area made up of a handful of exchanges. Consumers that travel more or make many calls to relatives or business associates will benefit from the above plans. Providing deeper geographic reach delivers a significant benefit to the consumer, and the FCC has cited studies concluding that "wireless service is cheaper than wireline, particularly if one is making a long distance call or when traveling."¹⁶

In sum, New York RSA 2 certifies that it offers at least one plan that is comparable to ILEC rate plans under the applicable FCC test.

¹⁶ Implementation of Section 6002(b) of the Omnibus Budget Reconciliation Act of 1993, Annual Report & Analysis of Competitive Market Conditions with Respect to Commercial Mobile Servs., *Ninth Report*, 19 FCC Rcd. 20597, 20684, para. 214 (2004).

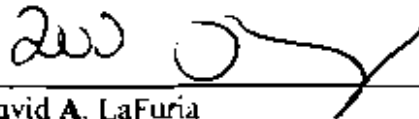

REDACTED – FOR PUBLIC INSPECTION

H. Equal Access.

As required of ETCs designated by the FCC under the *ETC Report and Order*,¹⁷ New York RSA 2 acknowledges that the FCC may require it to provide equal access to interexchange carriers in the event no other ETC is providing equal access in the designated ETC service area.

We trust that you will find this to be responsive to the compliance materials requested in the *ETC Report and Order* and New York RSA 2's ETC designation order.

Respectfully submitted.
